Buffalo (USA)

ZAMAGNI ELENA
Bologne

22 January 2025

08.50 Congress open
Alessandro Isidori

09.00 SESSION I Current challenges in Lymphomas

Chairmen: Maurizio Martelli, Umberto Vitolo

09.00 Perspectives in mantle cell lymphoma
Marco Ladetto

09.20 Perspectives in marginal zone lymphoma
Annarita Conconi

09.40 CAR-T in DLBCL
Alice Di Rocco

10.00 Therapeutic options in patients with relapsed/refractory DLBCL not eligible to CAR-T
Gerardo Musuraca

10.20 Current challenges in advanced-stage Hodgkin disease
Luigi Rigacci

10.40 Talk-show: Bispecific antibodies for relapsed/refractory B cell lymphomas: a new gold standard?
Maurizio Martelli, Umberto Vitolo, Marco Ladetto, Gerardo Musuraca

11.10 Coffee break

11.30 SESSION II Multiple Myeloma

Chairmen: Maria Victoria Mateos, Elena Zamagni

11.30 How I diagnose and treat high risk MM
Roberto Mina

11.50 Bispecific antibodies: how to choose them and how to manage them
Maria Victoria Mateos

12.10 CAR-T: patient's selection and management
Elena Zamagni

12.30 Bridging the gap: how to integrate therapeutic options for intermediate-fit patients at relapse
Pellegrino Musto

12.50 Talk-show: Bispecific antibodies for multiple myeloma: alternative or complementary to CAR-T? How to sequence them?
Maria Victoria Mateos, Elena Zamagni, Roberto Mina

13.30-14.15 Lunch Symposium (NO ECM)

With the contribution of BEIGENE
Raffaello Room

"SETTING NEW STANDARD IN CLL: ZANUBRUTINIB AS A BALANCE BETWEEN EFFICACY AND SAFETY"
Chairmen: Luca Laurenti, Francesca Romana Mauro

13.30 Welcome and introduction
Luca Laurenti

13.45 Clinical experiences with Zanubrutinib in CLL:
- First line treatment
Idanna Innocenti
- Treatment of R/R patients
Mariano Lucignano

14:00 Conclusions and take-home messages
Francesca Romana Mauro

14.15-15.00 Symposium (NO ECM)

With the contribution of ASTRAZENECA
Raffaello Room

"THE TREATMENT CHOICE IN 1L CHRONIC LYMPHOCYTIC LEUKEMIA: "ONE SIZE FITS ALL"?"
Chair: Alessandro Isidori

14.15 The efficacy and safety of Acalabrutinib: from clinical trials to RWE
Alessandro Sanna

14.30 The right treatment for the right patient: Biology vs Age & Fitness
Roberta Murru

14.45 Panel discussion
Roberta Murru, Alessandro Sanna

15.00-15.45 Symposium (NO ECM)

With the contribution of JANSSEN CILAG
Raffaello Room

INNOVATION IN HEMATOLOGY: PROMISING THERAPIES IN MULTIPLE MYELOMA AND CHRONIC LYMPHOCYTIC LEUKEMIA
Chair: Alessandro Isidori

15.00 From Frontline to Relapse: The Journey through MM
Elena Zamagni

15.20 From Frontline to Relapse: The Journey through CLL
Paolo Sportoletti

15.45-16.15 Symposium (NO ECM)

With the contribution of ABBVIE
Raffaello Room

HOW TO OVERCOME THE CURRENT CHALLENGES IN DLCL AND CLL

15.45 DLBCL
Chair: Andrés J. M. Ferreri
Epcoritamab deep and durable responses: 3-year update
Alice Di Rocco
15.55 Discussione e Q&A

16.00 CLL
Chair: Massimo Gentile
V+X: venetoclax as the backbone therapy in CLL
Andrea Visentini
16.10 Discussione e Q&A

16.15 - 16.30

Sponsored Lecture (NO ECM)

With the contribution of ELI LILLY
Raffaello Room

16.15 Pirtobrutinib and the new treatment algorithm for relapsed or refractory (R/R) mantle cell lymphoma
Gerardo Musuraca

16.30 Open coffee break

16.40 - 17.10

Talk show: Is all good enough in PNH?
Bruno Fattizzo, Simona Sica

17.10 SESSION III

Chronic lymphocytic leukemia

Chairmen: Francesca Romana Mauro, Antonio Cuneo

17.10 How biology influences treatment in CLL
Gianluca Gaidano

17.30 CLL therapy guided by measurable residual disease
Tahla Munir

17.50 Perspectives in refractory/resistant CLL
Paolo Sportoletti

18.10 Talk-Show: Fixed duration versus continuous therapy in 1L CLL: the final frontier
Antonio Cuneo, Gianluca Gaidano, Francesca Romana Mauro, Tahla Munir, Paolo Sportoletti

18.40 SESSION IV

Myeloproliferative neoplasms

Chairmen: Francesco Passamonti, Massimo Breccia

18.40 How I treat polycythemia vera
Francesco Passamonti

19.00 Rusfertide in polycythemia vera: data from clinical trials
Alessandro Isidori

19.15 New treatment options for CML patients in second or subsequent lines of therapy
Massimo Breccia

19.35 Current management of patients with myelofibrosis
Francesca Palandri

19.55 Discussion

20.30 Day-1 closing

23 January 2025

09.00 Lecture: Challenges in treatment of immune thrombocytopenia (ITP)

Elena Rossi

09.20 SESSION V

Myelodysplastic syndromes

Chairmen: Maria Teresa Voso, Antonella Poloni

09.20 Germline predisposition: clinical and ethical relevance

Julia Montoro

09.40 Perspectives and innovations in low-risk MDS

Lionel Aedes

10.00 Perspectives and innovations in high-risk MDS

Eunice Wang

10.20 Discussion

10.30 SESSION VI

Acute Myeloid Leukemia (I)

Chairmen: Konstanze Döhner, Giuseppe Visani

10.30 How molecular information guide treatment decision-making in AML patients

Konstanze Döhner

10.50 Treatment of high-risk AML

Eunice Wang

11.10 Optimal approaches to frontline FLT3 ITD AML

Alexander Perl

11.30 Discussion

11.40 Coffee break

12.00 SESSION VII

Acute Myeloid Leukemia (II)

Chairmen: Alessandro Isidori, Alexander Perl

12.00 Optimizing outcomes and practical management of patients treated with HMA-venetoclax based regimen

Brian Andrew Jonas

12.20 Menin inhibitors in AML

Eunice Wang

12.40 Acute promyelocytic leukemia in 2025

Maria Teresa Voso

13.00 Discussion

13.20-14.20

Lunch Symposium (NO ECM)

With the contribution of DAIICHI SANKYO

Raffaello Room

FLT3-Mutated Acute Myeloid Leukemia and the Evolving Role of FLT3 Inhibitors

Chair: Adriano Venditti

13.20 Welcome and introduction

Adriano Venditti

13:25 Is FLT3-ITD mutated AML really an intermediate-risk disease?

Maria Teresa Voso

13:40 Maintenance therapy in AML-FLT3-ITD + pts: what is the future?

Felicetto Ferrara

13:55 Talk-Show: how optimize treatment with FLT3i: is it time to define a sequencing strategy?

Introduction by Alessandro Isidori

14.20

Sponsored Lecture (NO ECM)

With the contribution of ABBVIE

Raffaello Room

14.20 AML

Chair: Anna Candoni

Improving AML patients life with VEN+AZA

Alessandro Isidori

14.35 Discussione e Q&A

14.40

Talk-Show: Conditioning regimens and early complications in allogeneic stem cell transplantation

Massimo Martino, Alessandro Isidori

15.10 SESSION VII

Breaking news from MD Anderson

Chairmen: Adolfo de la Fuente, Alessandro Isidori

15.10 Breaking news in ALL

Elias Jabbour

15:30 Breaking news in AML

Naval Daver

15:50 Discussion

16.00 Lecture - Current treatment of adult patients with acute lymphoblastic leukemia

Cristina Papayannidis

16.20 SESSION VIII

Acute Myeloid Leukemia (III)

Chairmen: Felicetto Ferrara, Marta Rivas

16.20 Maintenance in AML: a true alternative to allo-SCT for some patients?

Adolfo de la Fuente Burguera

16.40 Treatment of elderly patients with IDH1 +ve AML

Adriano Venditti

17.00 Alternative treatments for unfit patients with AML

Alessandro Isidori

17.20 Diagnosis and treatment of BPDCN

Livio Pagano

17.40 Discussion

17.50 Closing remarks – see you in 2026

Alessandro Isidori

CME INFO & REGISTRATION

Event n. 2007-434837

Objective n. 3

15 CME Credits for: Hematologists and Biologists

Free registration: www.proeventi.it

pin : current2025 (DEEP ECM APP)

ITALIAN ECM ACCREDITATION

Each participant, to obtain ECM credits, must attend at least 90% of the scientific work and complete the online ECM questionnaire with at least 75% of correct answers.

Attendance will be registered via QR code reader.

VENUE

NH VITTORIO VENETO, Rome

[Corso d'Italia, 1, 00198 Roma RM](#)

CONFERENCE CENTER -1 FLOOR

ECM AREA: TIZIANO + BOTTICELLI + TINTORETTO

LUNCH ROOM: MASCAGNI

EXPO AREA: VERDI

SYMPOSIA ROOM: RAFFAELLO

LANGUAGE

Italian speakers will present their works in Italian.

Foreign speakers will present their works in English.

Foreigners guests will receive the headset with simultaneous translation.

EDUCATIONAL GRANT

The organization offers travel grants for those interested in participating.

You can send your application to info@proeventi.it

The scientific committee will select the first 50 relevant applications.

SCIENTIFIC SECRETARIAT
